

SKIMMING BOOMS

SPILL ABSORBENTS

Oil-Skimming Booms

Because oil & water don't like each other!

[FEATURES]

- Absorbs and retains oils and oil-based liquids including lubricants, fuels and crude oil, without absorbing a drop of water
- Tough, chemical resistant outer mesh and inner skin keeps polypropylene filler inside for a lint-free boom with maximum absorbency and outdoor durability
- Booms keep absorbing and stays afloat even when fully saturated and have built-in clips to join booms together for the desired length
- Inner rope gives added strength and enabling easy deployment and retrieval on water

[APPLICATIONS]

- Oil-Skimming Booms are used to skim and absorb oil off water surfaces contaminated with hydrocarbons
- Mainly used on offshore spills as oil absorbing barricades to prevent spreading of the spillage and also soak up oil contaminants from the water surface.
